FOR IMMEDIATE RELEASE
April 22, 2014

12 Teams to Compete in Low Impact Development Design Competition

www.sustainablesbelby.com/LID

Memphis-Shelby County Office of Sustainability launched the Low Impact Development Design Competition as an opportunity for design firms to showcase their skills with Low Impact Development. The winning team will receive \$15,000. Registration closed April 11, 2014 with 12 teams pledging their participation. Last fall, Memphis-Shelby County Office of Sustainability received a \$21,900 Green Development Grant from Tennessee Department of Environment and Conservation (TDEC) to host a conference and design competition.

Teams will now have three months to work on their Low Impact Development design of a 12.5 acre senior living community in United Housing Inc.'s Wolf River Bluffs Planned Development in Frayser. Designs are due July 18.

Registered Teams

A2H, Inc.

Allen & Hoshall / Site Solutions

Blair Parker Design / Civil Engineering Solutions, LLC

Dalhoff Thomas design | studio / Corradino Group

ETI Corp.

Fisher & Arnold, Inc.

Gresham, Smith & Partners / Black & Veatch / All World Project Management

Keathley-Skaggs

LRK / Arup

Malasri-Gallo-Lawrence

Schnadelbach + Associates / Ibert

SSR, Inc. / Self+Tucker Architects / JPA

Low Impact Development (LID) is a way to treat stormwater runoff that mimics the natural hydrology of the site instead of the traditional method of piping the water directly off the site. The impetus for this competition is the updated regulations that will affect all municipalities as their stormwater permit gets renewed over the next few years.
